

Mr. Jamie Clarke B.Ed. (Health & Physical Education and Information Technology) worked for a number of years as a High School Educator for Education Queensland. After completing his Novell Network Engineer Certification in 2001 Mr. Clarke now works as a Network Administrator within a school environment. He has over 20 years IT experience including its application and integration into Pedagogical frameworks through Local and Wide area Networking pathways. Mr. Clarke has a strong interest in non-ionising EMF biological effects, particularly centered around educational settings and its community.
